

Sail On: The Beach Boys Tribute With Symphony

The songs everyone knows and loves, brought vividly to life with the magic of an orchestra.

Beyond the catchy simplicity of The Beach Boys' classic catalog of songs is a richness of sophistication unique in all the history of pop music. The genius for composition and arranging of the group's leader, Brian Wilson, has enthralled listeners for decades, often drawing comparisons to the likes of Mozart. The symphonic setting, therefore, is the perfect environment for the music of Brian Wilson and The Beach Boys to be appreciated in it's full dimensions. With Sail On at the foreground, leading the performance with energetic and authentic renditions of all the hits, the depth and versatility of the orchestra illuminates every brilliant detail of each timeless tune. The show is a vibrant soundscape of sweet vocal harmonies, ringing guitars, rolling percussion, and soaring strings. Audiences will celebrate in the swinging sing-along of Help Me Rhonda, the rocking kaleidoscope of Good Vibrations, and the celestial beauty of God Only Knows. Cruising to Little Deuce Coupe or riding the wave of Surfin USA, everyone will delight on a journey with Sail On and the symphony through some of the most unforgettable, fun, and engaging music that anyone could hope to enjoy.
