

# **SWEET POTATO PIE**

## **Music Teachers, PTA Cultural Arts Specialists, and Home School Parents**

We are proud to offer educational programs with players from Sweet Potato Pie: A Slice of the Pie. With 40+ years combined teaching experience, the Pie offers custom-tailored educational experiences in bluegrass music for Elementary, Middle, and Charter School students as well as Home Schooled children in a variety of detail levels and timeframes.

“As a young person, I grew up thinking that people who made music were people who were ‘born with talent.’ As an adult, I have learned that making music is only partly talent – and mostly hard, hard work! I delight to think that through our program we might inspire a child to try it.” - Penny Oman

“Learning music as a child opens the world to you. It allows you a new way to express yourself. Bluegrass music is particularly user friendly giving everyone a place to play and fit in.”- Sonya Stead
