

KUBECCA BIOGRAPHY

Rarely, if ever, can you experience such an amalgam of musical expression as is the musical act known as **Kubecca**.

Kuba Kawnik with his penchant for esoteric instruments and classically trained jazz background would seem worlds away from Rebecca Lowe's love of Broadway shows combined with her fondness for pop and country music.

Common thought would not give great odds that two such different talents could collide & ever be united into a cohesive whole. And yet, this couple has accomplished just that.

Originally from Poland, **Kuba Kawnik**, began his musical career at the age of four. Although best known for his performance on vibraphone, he has also mastered some unusual and difficult instruments, including the theremin, a rare and complex contemporary invention accessible to but a very few virtuosos worldwide.

Classically trained at the Academy of Music in Łódź, Poland, Kuba later studied at the acclaimed Jazz Institute of Katowice. He has played with the Warsaw Philharmonic and Łódź Philharmonic as well as for specials on Polish television. A frequent headliner on cruise lines such as Princess, Royal Caribbean, Holland America, Norwegian, Celebrity, Cunard, Oceania, Silversea and Crystal, he has performed for extensive international crowds. Repeatedly told by audiences how unique his show is and how mesmerized they were, he never ceases to bring something new to the stage.

Get to know and experience an exceptionally gifted talent who will amaze you with an exciting show, brimming with breathtaking virtuosity and pure fun!
