

## **COMMUNITY OUTREACH WORKSHOP**

Shadows of the 60's believe strongly in contributing to the enrichment of young people's lives. We offer a free workshop whereby a group of students selected by the host city who are interested in careers in the arts, can "Shadow" our personnel during our visit. Times will be worked out in advance. Our cast will mentor the students in their respective expertise in the arts. Whether the interest is management, production, performance or marketing, we freely share our knowledge. We also make ourselves available for press interviews.
