

NASHVILLE LEGACY – TECHNICAL RIDER

This technical rider becomes a part of the performance contract. Please review the contents carefully to ensure that the required provisions meet your understanding and approval.

LOCAL PRESENTER AGREES TO FURNISH AT OWN EXPENSE:

STAGE REQUIREMENTS: Standard concert setup. Stage should be swept clean and cleared of all equipment, debris, etc., prior to ARTIST's arrival.

Performers on stage: 4 Jason Coleman (piano), Meagan Taylor (guitar),
bass guitar, drums

People in touring company: 6-8

PIANO REQUIREMENTS: PRESENTER will provide piano. One nine-foot (9') Steinway concert grand piano "in excellent condition" is preferred, with an adjustable piano bench. Piano is to be tuned to "A-440" on the day of performance. Any other "excellent" concert grand should be acceptable.

AUDIO REQUIREMENTS: ARTIST will not provide audio equipment. ARTIST will use venue audio system, which should include appropriate and professional audio console, power amps, equalizers, speakers, and monitors adequate for venue dimensions.

ARTIST will provide own drum set, drum mics, guitars and amps.

- EXCEPTION: If concert is a fly date, ARTIST will provide own guitars but PRESENTER will provide drum set, drum mics, bass amp, and guitar amp.

In addition to the piano, PRESENTER will provide the following:

- Four (4) vocal microphones on boom stands (SM58 or equivalent).
- Two (2) quality microphones for the piano (high and low). Condenser microphones are preferred.
- One (1) instrument microphone on short stand for the electric guitar amp (SM57 or equivalent).
- Two (2) direct boxes for the acoustic guitar (run direct) and bass guitar (amp output).
- Three (3) XLR lines for ARTIST's drum mics (kick, snare, overhead).
- One (1) XLR line for ARTIST's computer audio (ARTIST will provide own direct box).
- Three (3) music stands with lights.
- AC power outlets to each performer.
- Four (4) monitor speakers with no fewer than three (3) monitor mixes.

LIGHTING REQUIREMENTS: Good concert lighting is required. Usually a general color stage wash with overhead and "front of house" electric suffices. Spotlights or tightly focused specials for both Jason and Meagan would be nice.

NASHVILLE LEGACY – TECHNICAL RIDER

VIDEO REQUIREMENTS: ARTIST's performance is enhanced by the use of video and images incorporated throughout the concert. PRESENTER is to furnish a quality video projector and large on-stage projection screen or backdrop scrim as well as audio (XLR) and video (VGA or HDMI) connections into venue audio/video system.

- Placement: If projector and screen are not already permanently installed in venue, the ideal setup is for screen to be elevated and placed center stage, as a backdrop behind ensemble. Alternatively, the screen may be offset to one side of stage. ARTIST is flexible with the screen placement depending on stage size and venue capabilities.
- Connection: ARTIST will provide video content from his own laptop computer connected to venue's video projector using venue's VGA or HDMI cable. Video connection should be run so that ARTIST's computer can be set up on a small stand or table directly beside the piano on stage. However, if video connection cannot be run to stage, ARTIST's computer may be set up elsewhere in the room within ~100 feet of the piano (for example, backstage or in the sound booth) and ARTIST will use wireless RF remote to advance his own media.
- Backdrop: If a choice of backdrops exists, a black traveler or backdrop would be the most appropriate behind the video screen. If a cyclorama exists, a deep blue or a color wash with some "breakups" may be appropriate. If a grand curtain exists, the curtain should be "open" as the house is open.

LOCAL CREW: A "knowledgeable" venue representative should be available to open doors at arrival time agreed upon during initial contact, and a crew should be on hand before and after the concert to help load in and load out ARTIST's equipment. An Audio Engineer and a Master Electrician (lighting board operator) are required and should be present during sound check and to operate the show.

DRESSING ROOMS: At least two (2) private dressing rooms with easy access to the stage, furnished with chair, table, mirror, clothes rack with hangers, and wastebasket. The dressing rooms should have access to a private bathroom (for ARTIST only) with hot and cold running water, adequately supplied with fresh soap and clean towels, tissue and paper towels.

HOSPITALITY: ARTIST would appreciate a light meal for touring company approx. 90 minutes before show time. ARTIST requests bottled water (some cold, some room temperature) and soft drinks as well as either a deli sandwich tray or plain sub sandwiches (ham or turkey and cheese only, no dressings) and assorted light snacks including chips, fruit or cookies.

RECEPTIONS: ARTIST will be happy to attend receptions after a show concludes; however, due to tour schedule, sometimes ARTIST may not be available. Before attending a reception, ARTIST may also need to complete their touring duties and equipment load-out. Please clear all receptions upon initial contact. The ARTIST will always try to accommodate.

MERCHANDISE: ARTIST will sell CDs and other merchandise before and after the performance and during intermission, with no commissions payable to PRESENTER. Please provide at least one (1) six-foot (6') table and two (2) chairs to be used by ARTIST's designated salespeople.

Please discuss any variations to the provisions of this rider with ARTIST in advance to ensure a smooth and successful performance!
