

Quotes & Testimonials:

We just wanted to let it be known how much we THOROUGHLY enjoyed our evening with Jaimee Paul and group last evening. WHAT A FABULOUS SHOW! You knocked it out of the park bringing them to Sun City! I think tears were rolling down my face half the night, be it from the "My Funny Valentine" number done with the trumpet, or Jaimee's sweet, sincere, wonderful Thank You to the audience toward the end. We are SO fortunate to have gotten our tickets because our seats were among the very last when we purchased them!

The stage lighting was GORGEOUS. We were so intrigued with the hanging globes: it looked as though there were candles inside, and how lovely when they turned different colors. The backdrops were fabulous - especially the 'curtains' that looked like jeweled drapes that also were all different colors thanks to the talented lighting effects.

Jaimee and Leif were absolutely fantastic!!!! We got the best of both worlds with this dynamic duo. With Jaimee's vocals and Leif's musicianship, our audience was treated to a wonderful evening. Don't know how we will top this next year. Comments were that this was the best ever! Jaimee and Leif are very kind and approachable artists. We would welcome them back here anytime and will probably look at some future dates. Our audience appreciated both the vocals and the instrumentation that this team provided.
